

una Cilana	Clinical Excellence Measures		
	odes should be appropriate to the service(s) rendered and follow that the NCQA HEDIS® specifications and may not reflect Medi-Cal/Me		and reimbursement.
HEDIS® Measure & Description	Medical Record Documentation Needed	Description	Codes
Appropriate Testing for Children with Pharyngitis (CWP) Children 3-18 years of age diagnosed with pharyngitis and dispensed an antibiotic should have received a Group A strep test within three (3) days prior to the diagnosis date through the three (3) days after the diagnosis date. Note: Claims/encounters with more than one diagnosis (e.g., competing diagnoses) are excluded from the measure.	 Specifications: Members included in this measure have an outpatient or ED visit with a sole diagnosis of pharyngitis. Members diagnosed with pharyngitis and prescribed an antibiotic MUST have received a group A strep test in the seven-day period from three (3) days prior to the diagnosis through three (3) days after the diagnosis. Rapid strep test and strep culture are both acceptable for this measure. Ensure any secondary diagnoses indicating the need for an antibiotic are submitted on the claim. 	Strep Test	87070, 87071, 87081, 87430, 87650 - 87652, 87880 **
	**Rapid strep tests done in the office are reimbursed fee for service when billed timely using CPT code 87880.
